

Overview

Rent-N-Arc Equipment Rentals

About Us

Rent N Arc rents and sells Diesel Engine welders, Electric Welders and Weld Automation equipment - anywhere in the Middle East!

Rent N Arc Equipment Rentals is a new venture of **Al Huda investments LLC**, a multidimensional company based in Dubai, UAE. The group has been actively engaged in Trading, Real Estate, Medical and IT services in the UAE for over 45 years.

Al Huda Investments formed a Joint Venture company named **Red-D-Arc Middle East LLC** in collaboration with **Red-D-Arc Welderentals Canada & Airgas Inc., USA (an Air Liquide Company)** in **2006**. After successful collaboration of 15 years Al Huda Investments took over the management of the JV in 2021 to continue the growth and success independently by rebranding it as **Rent N Arc LLC**.

Our rental welding machines, automation and specialty products have been engineered and built to provide **Extreme-Duty** performance and reliability in even the harshest environments and are available through our main centre located at **Dubai Investments Park** in Dubai, UAE. Also, we are running sales operations through our sister concern company located in **Musaffah, Abu Dhabi** to serve customers for their swift needs. Our objective is to supply top quality products with a customer service second to none.

When you rent or buy from Rent N Arc, you get a company that's large enough to handle your largest job site requirements, yet nimble enough to offer highly personalized service. We provide highly skilled technicians to deliver complete technical support on call and on site for all kind of installations. Our reputation in the industry is your guarantee that we react quickly to market changes, meet the needs of every customer within the target time and budget.

Rent N Arc is also an exclusive partner for **Keyplant Automation Ltd (UK)** in the UAE to source additional weld automation equipment needed at customer job sites for **rent or sell** irrespective of how large the project requirements are while providing unparallel service and support.

From our rental fleet of over **2,000+** welding machines, **1000+** automation equipment, we can supply you with the equipment you need – where you need it – when you need it.

OUR VISION

To provide high quality services that exceed the expectations of our esteemed customers whilst adhering to industry standards. Our company is proud in finding unique solutions for every project and customer.

OUR MISSION

To develop long-term business relationships with our clients by providing top-notch welding equipment and exceptional customer services while maintaining the safety of personal and plant equipment at competitive prices and in a timely manner.

OUR VALUES

We are dedicated to the highest degree of integrity, honesty, and business ethics into all aspects of our business functions that regard us a leader in the industry in areas of safety, reliability and performance.

Location

Rent-N-Arc Equipment Rentals

Rent N Arc is strategically located at **Dubai Investments Park** in Dubai with an easy access to Abu Dhabi and Northern Emirates

Organization Structure

Customers Served

Rent N Arc serves as a broad based of clients primarily in the non-residential construction industry.

Steel fabrication shops, structural steel erectors, electrical and mechanical contractors, shipyards, storage vessel fabricators, bridge and highway builders, process plant turn-around engineers and constructors are a few of the clients and industries we serve.

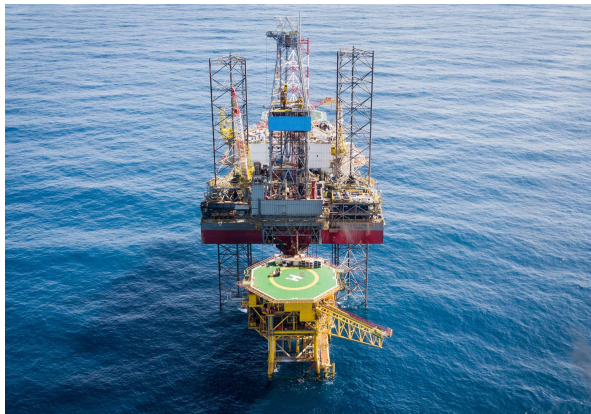

We can supply a few pieces of equipment for short-duration jobs or hundreds of units for large plant shut-downs and large-scale construction projects.

Our clients have come to count on us for their welding-equipment requirements and our welding-process advice.

In addition to the welding equipment, we also rent weld automation and welding-related specialty equipment.

We consistently strive to provide the highest level of service with the best-suited products for the job and by supplying the most up-to-date, best-suited equipment, we often able to save our customers both time and money on their construction projects. We always have skilled technicians to provide you with complete technical support for maintenance and installation works.

In fact, some of our clients prefer not to own any welding equipment – instead outsourcing all their needs to us.

Induction Heating Systems

Miller ProHeat 35 liquid-cooled and air-cooled heat induction systems for safe, efficient preheating and stress relieving

[Induction Heating ▶](#)

- Welding Preheating and Stress Relieving
- Easy to Learn, Easy to Use
- Can Reduce Preheat time by 400%
- Liquid-Cooled and Air-Cooled Systems
- Reduce Set-Up, Fast Time-to-Temperature

With the new ProHeat 35 induction heating systems, one or two Joints can be rapidly and uniformly heated for preheat or stress relief with minimal setup and instruction time. An induction heating system induces heat electromagnetically rather than by using heating element to conduct heat. The Proheat 35 can be used as an air-cooled system for temperatures up to 400 F or as a liquid-cooled system for temperatures up to 1450° F

Liquid cooled Heating Cables are available in different sizes of 30ft, 50ft, 80ft and 140ft
Output extension cables are available in different sizes of 10ft , 25ft and 50ft
Induction blankets are available in different sizes ranging from 8.625 in – 56in pipe
Optional Digital Recorder
